Cariogenic agents
The effect of sucralfate on the growth of cariogenic streptococci (Brown et al). 1991;66:256-60
Casting technique
An accelerated technique for casting post and core restorations (Campagni and Majchrowicz). 1991;66:155-6
A convenient material for luting casts (Kolodney and Akerly). 1991;66:716 (Tips)
A crown for clinically investigating microleakage (Felton et al). 1991;66:34-8
The effect of bead attachment systems on casting patterns and resultant tensile bond strength of composite resin veneer cast restorations (Lee et al). 1991;66:623-30
The effect of powder/liquid ratio on the in vivo solubility of polycarboxylate cement (Osborne and Wolff). 1991;66:49-51
Marginal accuracy of complete crowns made from alternative casting alloys (Tjan et al). 1991;66:157-64
Positional accuracy of four die tray systems (Richardson et al). 1991;66:39-45
Prefabricated custom impression trays for the altered cast technique (Lund and Aquilino). 1991;66:782-3
A procedure for restoring proximal contact surfaces of cast gold restorations with solder (Kimondollo). 1991;66:408-9
Production of accurately fitting full-arch implant frameworks. Part I: clinical procedures (Goll). 1991;66:377-84
Quality criteria for pure titanium casting, laboratory soldering, intraoral welding, and a device to aid in making uncontaminated castings (Hruska and Borelli). 1991;66:561-5
Resin-bonded etched castings with extracoronal attachments for removable partial dentures (Marinello et al). 1991;66:52-5
Retentive remount cast for obturator prostheses (Gardner et al). 1991;66:275 (Tips)
A two-stage impression technique for the indirect fabrication of multiple cast dowel and cores (Trebilcock and Evans). 1991;66:422-5
Wettability of elastomeric impression materials and voids in gypsum casts (Cullen et al). 1991;66:261-5
Cements
A convenient material for luting casts (Kolodney and Akerly). 1991;66:716 (Tips)
The effect of powder/liquid ratio on the in vivo solubility of polycarboxylate cement (Osborne and Wolff). 1991;66:49-51
Effects of lubrication on the retention of tapered and parallel cast post and cores (Olin et al). 1991;66:45-9
Facilitated cement removal between splinted provisional restorations (Hannon). 1991;66:276 (Tips)
Cements—cont'd
Hardening of dual-cured cements under composite resin inlays (Hasegawa et al). 1991;66:187-92
Leakage of various types of luting agents (Mash et al). 1991;66:763-6

Measurement of oral status and treatment need among subjects with dental prostheses: Are the measures less reliable than the prostheses? Part III: fixed prosthodontics and restorative dentistry (Gordon). 1991;66:55-9
Research and education. 1991;66:84-131, 256-65, 391-402, 545-58, 693-708, 813-5
Resin luting cements; *see* **Cements**
Resins; *see also* **Acrylic resins; Composite resins**
Bonding of plastic teeth to denture base resins (Kawara et al). 1991;66:566-71
Dimensional accuracy of denture resin cured by microwave energy (Wallace et al). 1991;66:403-8
Dimensional change in maxillary prosthetic obturators (DaBreo). 1991;66:669-73
Dimensional changes of processed denture bases after relining with three resins (Breeding et al). 1991;66:650-6
The effect of carbon graphite fiber reinforcement on the strength of provisional crown and fixed partial denture resins (Larson et al). 1991;66:816-20
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1991;66:84-131
Shear resistance of composite resin to enamel using color-modifying resins and variously applied unfilled bonding resins (Pagniano and Longenecker). 1991;66:445-50
Spot-welded wire hooks as seating guides for resin-bonded castings (Millar and Nesbit). 1991;66:460-2
Tensile strength of five types of retention for resin-bonded prostheses (Bastos et al). 1991;66:759-62
Transfer copings made of a visible light-cured resin (Passon and Goldfogel). 1991;66:611-3
The transverse strengths of three denture base resins (Dixon et al). 1991;66:510-3
The use of visible light-cured resin system in maxillofacial prosthetics and neuro-orthopedic surgery (Alsawaf et al). 1991;66:369-76
Resistance form
Evaluation of resistance form for prepared teeth (Parker et al). 1991;66:730-3
Restoration, permanent
Amalgam onlay restoration (Doukoudakis and Doukoudakis). 1991;66:493-7
An accelerated technique for casting post and core restorations (Campagni and Majchrowicz). 1991;66:155-6
Comparison of manually and mechanically mixed glass ionomers (Cooley and Train). 1991;66:773-6
Fracture durability of restored functional cusps on maxillary nonvital premolar teeth (Ulusoy et al). 1991;66:330-5
A procedure for restoring proximal contact surfaces of cast gold restorations with solder (Kimondollo). 1991;66:408-9
Relative color stability of ceramic stains subjected to glazing temperatures (Crispin et al). 1991;66:20-3
Restoration of multiple placed endosseous implants when the team approach was not followed: a clinical report (Lewandowski and Johnson). 1991;66:149-51

Restoration, permanent—cont'd
Restorative margin placement and peridontal health (Reeves). 1991;66:733-6
Stabilization of the craniomandibular therapeutic relationship with etched porcelain bonded restorations: a clinical report (Williams and Sigler). 1991;66:583-8
Surgical template impression during stage I surgery for fabrication of a provisional restoration to be placed at stage II surgery (Hochwald). 1991;66:796-8
Restoration, temporary
Expedient and effective interim restorations for compromised posterior teeth (Bodai). 1991;66:139-40 (Tips)
Facilitated cement removal between splinted provisional restorations (Hannon). 1991;66:276 (Tips)
Retention; *see also* **Cements**
Evaluation of resistance form for prepared teeth (Parker et al). 1991;66:730-3
The placement of angled implants in the edentulous maxillae for the use of overdentures (ten Bruggenkate et al). 1991;66:807-9
Pulpal response to threaded pin and retentive slot techniques: a pilot investigation (Felton et al). 1991;66:597-602
Tensile strength of five types of retention for resin-bonded prostheses (Bastos et al). 1991;66:759-62
Root canal; *see* **Pulp cavity**
Root canal obturation
Fabrication of one-piece hollow obturators (Jhanji and Stevens). 1991;66:136-8
Retentive remount cast for obturator prostheses (Gardner et al). 1991;66:275 (Tips)
Simplified technique for the fabrication of a hollow obturator prosthesis using vinyl polysiloxane (Gardner et al). 1991;66:60-2
Vertical root fracture and relative deformation during obturation and post cementation (Obermayr et al). 1991;66:181-7
Root fracture; *see* **Tooth fractures**
Rubber
Wettability of elastomeric impression materials and voids in gypsum casts (Cullen et al). 1991;66:261-5

S

Saliva
In vivo antifungal efficacy of salivary histidine-rich polypeptides: preliminary findings in a denture stomatitis model system (Santarpia et al). 1991;66:693-9
Shear bond strength; *see* **Bond strength**
Shear resistance; *see* **Bond strength**
Silanes
The effect of methyl methacrylate reinforcement with silane-treated and untreated glass fibers (Solnit). 1991;66:310-4
Silica
Restoration of occlusal vertical dimension by means of a silica-coated onlay removable partial denture in conjunction with dentin bonding: a clinical report (Trushkowsky and Guiv). 1991;66:283-6
Silicone elastomers
Effects of strain rate on the behavior of elastomeric impression (Klooster et al). 1991;66:292-8
Silicones
Adhesive properties of several impression material systems. Part I (Chai et al). 1991;66:201-9
Adhesive properties of several impression material systems: Part II (Chai et al). 1991;66:287-92
Fabrication of one-piece hollow obturators (Jhanji and Stevens). 1991;66:136-8
Prevention of catalyst contamination of vinylpolysiloxane silicone impression material during the impression procedure (Duncan). 1991;66:277 (Tips)
Silicones—cont'd
Properties of the tray adhesive of an addition polymerizing silicone to impression tray materials (Sulong and Setchell). 1991;66:743-7
Skull
Tissue compatibility of methylmethacrylate in cranial prostheses: a preliminary investigation (Gary et al). 1991;66:530-6
Smiling
Gingival smile enhancement for the edentulous patient by using a Lefort I osteotomy (Massad et al). 1991;66:151-4
Sodium fluoride
The effects of sodium fluoride and stannous fluoride on the surface roughness of intraoral magnet systems (Obatake et al). 1991;66:553-8
Soldering
Corrosion properties of soldered joints. Part II: corrosion pattern of dental solder and dental nickel-chromium alloy (Shigeto et al). 1991;66:607-10
A procedure for restoring proximal contact surfaces of cast gold restorations with solder (Kimondollo). 1991;66:408-9
Quality criteria for pure titanium casting, laboratory soldering, intraoral welding, and a device to aid in making uncontaminated castings (Hruska and Borelli). 1991;66:561-5
Solubility
The effect of powder/liquid ratio on the in vivo solubility of polycarboxylate cement (Osborne and Wolff). 1991;66:49-51
Speech disorders
Computerized design of speech prostheses (Leonard). 1991;66:224-30
Fluoroscopy and nasoendoscopy in designing palatal lift prostheses (Turner and Williams). 1991;66:63-71
Spine
The use of visible light–cured resin system in maxillofacial prosthetics and neuro-orthopedic surgery (Alsawaf et al). 1991;66:369-76
Splints
An alternative splint in the management of a patient with a temporomandibular joint disorder: a clinical report (Lim). 1991;66:588-91
Fixed cantilever splints on teeth with normal and reduced periodontal support (Wylie and Caputo). 1991;66:737-42
A provisional removable partial denture for use during construction of an anterior splint bar prosthesis (Hansen). 1991;66:642-4
Stains and staining
Relative color stability of ceramic stains subjected to glazing temperatures (Crispin et al). 1991;66:20-3
Stannous fluoride; *see* **Tin fluoride**
Stereophotogrammetry; *see* **Photogrammetry**
Sterilization
Cutting effectiveness of diamond instruments subjected to cyclic sterilization methods (Gureckis et al). 1991;66:721-6
Stomatitis, denture
Denture stomatitis and ABO blood types (Nikawa et al). 1991;66:391-4
In vivo antifungal efficacy of salivary histidine-rich polypeptides: preliminary findings in a denture stomatitis model system (Santarpia et al). 1991;66:693-9
Stomatognathic system
Pattern of tooth contacts in eccentric mandibular positions in young adults (Ingervall et al). 1991;66:169-76
Strain rate; *see* **Tensile strength**
Streptococcus
The effect of sucralfate on the growth of cariogenic streptococci (Brown et al). 1991;66:256-60

Stress, mechanical
Fixed cantilever splints on teeth with normal and reduced periodontal support (Wylie and Caputo). 1991;66:737-42
Stresses at the dentinoenamel junction of human teeth—a finite element investigation (Goel et al). 1991;66:451-9
Stress, psychological
Evaluation of the psychological profiles of patients with signs and symptoms of temporomandibular disorders (Zach and Andreasen). 1991;66:810-2
Subpontic osseous hyperplasia; *see* **Hyperplasia**
Sucralfate
The effect of sucralfate on the growth of cariogenic streptococci (Brown et al). 1991;66:256-60
Supraeruption; *see* **Tooth eruption**
Surgical flaps
Improved pontic/tissue relationships using porous coralline hydroxyapatite block (Olin et al). 1991;66:234-8
Surveyor
Surveyor attachment for milling guiding planes (Adkisson). 1991;66:414 (Tips)
Systemic chemotherapy; *see* **Drug therapy**

T

T-scan system; *see* **Computer systems**
Tarnish
Tarnish and corrosion with the use of intraoral magnets (Drago). 1991;66:536-40
Tarnish of dental alloys by oral microorganisms (Vaidyanathan et al). 1991;66:709-14
Technology
Dental technology. 1991;66:132-8, 266-74, 403-9, 559-71, 709-14, 816-20
Templates
Surgical template impression during stage I surgery for fabrication of a provisional restoration to be placed at stage II surgery (Hochwald). 1991;66:796-8
Temporary restoration; *see* **Restoration, temporary**
Temporomandibular joint diseases
Transcranial radiography and linear tomography: a comparative study (Knoernschild et al). 1991;66:239-50
Temporomandibular joint syndrome
An alternative splint in the management of a patient with a temporomandibular joint disorder: a clinical report (Lim). 1991;66:588-91
Diagnostic tests used in determining the role of the occlusion in temporomandibular joint disorders (Long). 1991;66:541-4
Evaluation of the psychological profiles of patients with signs and symptoms of temporomandibular disorders (Zach and Andreasen). 1991;66:810-2
Predictive value: a model for dentists to evaluate the accuracy of diagnostic tests for temporomandibular disorders as applied to a TMJ scale (Levitt). 1991;66:385-90
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1991;66:84-131
Tendinitis
Hyoid bone syndrome: a degenerative injury of the middle pharyngeal constrictor muscle with photomicroscopic evidence of insertion tendinosis (Ernest and Salter). 1991;66:78-83
Tensile strength; *see also* **Bond strength**
The effect of bead attachment systems on casting patterns and resultant tensile bond strength of composite resin veneer cast restorations (Lee et al). 1991;66:623-30
The effect of film thickness on the tensile bond strength of a prosthodontic adhesive (Diaz-Arnold et al). 1991;66:614-8
Effects of strain rate on the behavior of elastomeric impression (Klooster et al). 1991;66:292-8
Tensile strength—cont'd
Tensile strength of five types of retention for resin-bonded prostheses (Bastos et al). 1991;66:759-62
Therapeutics
Measurement of oral status and treatment need among subjects with dental prostheses: Are the measures less reliable than the prostheses? Part III: fixed prosthodontics and restorative dentistry (Gordon). 1991;66:55-9
Tin fluoride
The effects of sodium fluoride and stannous fluoride on the surface roughness of intraoral magnet systems (Obatake et al). 1991;66:553-8
Tips from readers
Tips from our readers. 1991;66:139-40, 275-7, 410-4, 572-6, 715-6, 821-4
Tissue conditioning
In vitro cytotoxicity of tissue conditioners (Okita and Henstenpettersen). 1991;66:656-9
Titanium
Quality criteria for pure titanium casting, laboratory soldering, intraoral welding, and a device to aid in making uncontaminated castings (Hruska and Borelli). 1991;66:561-5
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1991;66:84-131
Tomography
Transcranial radiography and linear tomography: a comparative study (Knoernschild et al). 1991;66:239-50
Tongue
Making a tongue protector (Safati). 1991;66:412-3 (Tips)
Tooth
Combination natural tooth and implant-borne removable partial denture: a clinical report (Ganz). 1991;66:1-5
Tooth abrasion
A comparison of the abrasiveness of six ceramic surfaces and gold (Jacobi et al). 1991;66:303-9
Tooth eruption
Supraeruption of the unopposed maxillary first molar (Compagnon and Woda). 1991;66:29-34
Tooth fractures
Fracture durability of restored functional cusps on maxillary nonvital premolar teeth (Ulusoy et al). 1991;66:330-5
Fracture resistance of pin-retained amalgam, composite resin, and alloy-reinforced glass ionomer core materials (Kao). 1991;66:463-71
Vertical root fracture and relative deformation during obturation and post cementation (Obermayr et al). 1991;66:181-7
Tooth loss
A modified finish line allowing for tooth loss under a maxillary removable partial denture (McArthur). 1991;66:715 (Tips)
Tooth movement
Stereophotogrammetric analysis of abutment tooth movement in distal-extension removable partial dentures with intracoronal attachments and clasps (Chou et al). 1991;66:343-9
Tooth root
Vertical root fracture and relative deformation during obturation and post cementation (Obermayr et al). 1991;66:181-7
Toothbrushing
The effect of toothbrushing on a hybrid composite resin (Goldstein and Lerner). 1991;66:498-500
Toothpaste
The effect of toothbrushing on a hybrid composite resin (Goldstein and Lerner). 1991;66:498-500
Torsion
Resistance to torsional forces of various post and core designs (Hemmings et al). 1991;66:325-9

Tracheostomy
Tracheostoma obturator fabrication (Marunick). 1991;66:231-3
Transcranial radiography; *see* **Radiography**
Transfer coping
Transfer copings made of a visible light-cured resin (Passon and Goldfogel). 1991;66:611-3
Transmandibular implant; *see* **Implantation, endosseous**
Transverse strength
The transverse strengths of three denture base resins (Dixon et al). 1991;66:510-3

U

Ulcer
Ulcerative lesions of the palate associated with removable partial denture castings (Taylor and Morton). 1991;66:213-21

V

Value; *see* **Color**
Veneers
Convergence of the axial walls of full veneer crown preparations in a dental school environment (Noonan and Goldfogel). 1991;66:706-8
The effect of bead attachment systems on casting patterns and resultant tensile bond strength of composite resin veneer cast restorations (Lee et al). 1991;66:623-30
Fracture incidence on debonding of orthodontic brackets from porcelain veneer laminates (Kao and Johnston). 1991;66:631-7
Shear bond strengths of resin luting cements to laboratory-made composite resin veneers (Tam and McComb). 1991;66:314-21
Surface preparations for metal frameworks of composite resin veneered prostheses made with an adhesive opaque resin (Matsumura et al). 1991;66:10-5
Variables affecting the spectral transmittance of light through porcelain veneer samples (O'Keefe et al). 1991;66:434-8
Vertical dimension
Pattern of tooth contacts in eccentric mandibular positions in young adults (Ingervall et al). 1991;66:169-76
Restoration of occlusal vertical dimension by means of a silica-coated onlay removable partial denture in conjunction with dentin bonding: a clinical report (Trushkowsky and Guiv). 1991;66:283-6
Use of a modified Boley gauge in determining vertical jaw relations (Kolodney et al). 1991;66:574-6 (Tips)
Vertical dimension—cont'd
Vertical dimension: a dynamic concept based on facial form and oropharyngeal function (Mack). 1991;66:478-85
Vertical root; *see* **Tooth root**
Vinyl polysiloxane
Prevention of catalyst contamination of vinylpolysiloxane silicone impression material during the impression procedure (Duncan). 1991;66:277 (Tips)
Simplified technique for the fabrication of a hollow obturator prosthesis using vinyl polysiloxane (Gardner et al). 1991;66:60-2
Visible light-cured resins; *see* **Resins**

W

Waxes
An improved index for the waxed stage of an implant-retained framework (Adrian et al). 1991;66:665-9
Clinical evaluation of three occlusal registration methods for guided closure contacts (Kong et al). 1991;66:15-20
Welding
Quality criteria for pure titanium casting, laboratory soldering, intraoral welding, and a device to aid in making uncontaminated castings (Hruska and Borelli). 1991;66:561-5
Spot-welded wire hooks as seating guides for resin-bonded castings (Millar and Nesbit). 1991;66:460-2
Wires
Spot-welded wire hooks as seating guides for resin-bonded castings (Millar and Nesbit). 1991;66:460-2

X

X chromosome
X-linked (recessive) hypomaturation amelogenesis imperfecta: a prosthodontic, genetic, and histopathologic report (Patel et al). 1991;66:398-402
X-linked hypomaturation amelogenesis imperfecta; *see* **Amelogenesis imperfecta**

Z

Zinc phosphate cement
Effect of fitting adjustments on compressive strength of a new foil crown system (Hummert et al). 1991;66:177-81
